"Our dogs are power chewers and by that I mean they destroy normal toys within minutes. And neither dog was able to destroy this toy. Hours of chew time without destruction or pieces coming off of it. Just awesome!"

Pranav R.

"My Boston Terrier is an extreme chewer. Nylon toys are the only ones that have a chance at lasting a good while. I was happy to find SodaPup as another nylon toy option. We'll be back for more!"

Bruno J.

"Another great chew toy for my dog's collection! We have a few of the other toys and I can confirm they all have lasted. I love these toys and am so happy I came to the website cause now I can buy him some new durable toys!"

Lily D.

"We have 2 German Shepherds, one being trained in bite work and narcotics detection. These are absolute destroyers of toys... these are the only toys that can stand up to them!"
