*"We have 2 cats and they LOVE water. They've flooded the floors before, emptying entire bowls, so this was a bit of a process for us to find a solution. It is the only bowl we can put out for them!"*

*"I highly suggest this bowl if you have a pet who loves water. We just got our second one. I'm not sure how well it would work with a large pet, but it works great for us! Highly recommend!"*

*"This bowl is well made and works very well. Convenient to use, easy to clean and refill. No more soaked floors! Great value for the money. I ordered a second bowl the next day. I love it!"*

*"We've only had this item for a week so far, but wow. It's genius. It has been a GAME CHANGER!! Our dog went from throwing up every single time he drank to never throwing up!"*
