

DOG TOY FEEDER BALL LARGE (2.8 INCH)

"My puppy is a rough nibbler as she goes through her teething. We just got the balls today, but she's in love with them already. So much so that she has forsaken her favorite chew toy."

Built from ultra-sturdy, non-toxic rubber, our Dog Bite Ball features a serrated-teeth design that helps your dog clean his teeth and gums, all while building fine-motor and cognitive skills if you hide food inside the ball.
