

FLYING PIG CLIP-ON AIR FRESHENER

"This is the funniest thing ever! The wings flap when the air is blown on it from the air conditioner. It stays in place and brings a smile to my dad's face every time he gets in the car."

See? Pigs can fly.
Well – not really. But what they can do is freshen up your driving quarters for a breath of fresh air. And when they're our Flying Pig Clip-On Air Freshener, they'll really turn up the charm.
