

Car Wash Foam-Generating Tank

Tired of tediously soaping down your ride, then washing it all off with water? You can combine both steps into one now with the help of this Car Wash Foam-Generating Tank. Once attached, you just need to run the water in your hose and twist the pressure knob atop the tank to release the soap solution. This tank can provide the soapy, one-wash-and-done convenience you're looking for. Clean up like a pro!
