

MAGNETIC TRIANGLE PHONE MOUNT

"This is PHENOMENAL! I own the Samsung NOTE 10+ and it is a pretty heavy phone and on a case. So I have battled with many other vent clips or promising holders that just failed completely. This one actually works! It's FANTASTIC!"

If you're tired of your phone falling off a weak air-vent holder, harness the power of magnets with this Magnetic Triangle Phone Mount. Simply place a magnet (it's included) inside your phone case and enjoy better driving!
