

PORTABLE CAR ASHTRAY

"I love these little ashtrays so much! They are great for your car or front porch, inexpensive, easy to empty! Give you the piece of mind that if the cigarette isn't completely extinguished, it will be because the can does not let any additional oxygen in."

Do you roll down your window and just flick your cigarette away when you're done with it? Let's not – because that is littering and unclassy. With our Portable Car Ashtray, you get a fit-in-your-cup-holder solution for disposing of your smokes.
