

STICK-ON CONCAVE BLINDSPOT MIRROR

“Love these. It helps with blind spots and also when you’re trying to back in a parking spot. It can be positioned to where you can see the ground as well as your blind spot.”

Like an extra pair of eyes, our Stick-On Concave Blindspot Mirror helps keep an eye out on oncoming cars or motorists, so you can make lane changes and turns with certainty.

Be sure when you’re unsure!
