

CHEWING TOY FOR PARROTS

"My bird loves this thing she is either chewing on it or sitting beneath it, maybe she thinks its a palm tree? I would recommend this to anyone that has a bird and they will love it!"

Keep your parrot entertained and busy! Your birds need to explore the world around them, be busy with something they like, and follow their instincts. But it is difficult in a big city. That's when toys like this one come to the aid.
