

FARM PUZZLE

"This was a hit with my toddler! He loves that the pieces are smooth and he can play with them like toys. I like that it's magnetic so he can put them on any magnetic surface and decorate our stuff in his way. Perfect non-electronic gift :)"

This magnet puzzle will make your child familiar with the natural world around them. Different vegetables that we all eat every day, animals without which our life is impossible. Your kid will know where the food comes to our tables!
