

# BLACK STITCHED STEERING WHEEL COVER

*"The design look very luxurious. Just what I needed to protect my steering wheel and improve the aesthetics of my car's interior. The padding is just right. It gives a little cushion to the steering wheel and keeps it from heating up too much."*

Strengthen your control over the steering wheel with this smooth, grip-ready wheel cover. Keep your steering wheel from peeling on sunlight with the PU leather of our cover. Stitching detail and a ribbed grip design also add a touch.
