

ORANGE SWIM SLEEVES

"These are the best "floaties" ever invented in the history of floaties. We use them for our 4 year old. The best feature is that instead of struggling to push them on his arm, they "roll" up his arm, which makes putting these on inflated a breeze."

These orange swim sleeves ensure your child's safety in water and promote their water confidence. Their durable construction prevents air from escaping, while the bright orange color enhances visibility. Stay safe & enjoy your vacation!
