

REMOTE-CONTROLLED SNAKE

"Lots of fun. Moves so fast I've had to really work at getting my reflexes up to speed so I don't run into things with it. Scares the dog. Remote control works great and the snake is very life-like in the way it moves across the floor."

The snake is perfect for goofing around! But not only for that. The snake will make an excellent present for wildlife enthusiasts or children who are curious to learn more about snakes. This cool moving snake will delight your kid!
