

RUBBER GRIP STEERING WHEEL COVER

"Good grip and unusual styling! This is the BEST steering wheel cover I've ever used, very pretty design and just the absolute best grip on the raised sides. I actually feel safer driving with this incredible grip. AMAZING LOOK and FEEL."

Our wheel cover features a tight-fitting interior rubber lining for a close fit while grip bumps on the sides of the cover allow drivers to get a hold (literally) for better of steering control. Fits just about every steering wheel!
