

# Umbrella For Baby Stroller

Unexpected rain or hot sun can ruin the walks with your baby within 5 minutes. But wait, there are umbrellas – and yes, they can be attached to the stroller. Do you want to see how? Check it out! Insert umbrella's end in the holding part, rotate it until it's tight, and that's it. Clip the holder onto the stroller handle, and screw the clip. Be sure that your baby is always safe and sound.
