

# PINK & BLUE FOAM ROLLER

*"It's the first foam roller I've purchased. It looks exactly as pictured. The outer layer is moderately firm, just what I wanted. The nodules keep the roller from slipping and I don't find them uncomfortable through clothing. Overall, great!"*

Delight your body with this capable roller! The perfect remedy for the post-workout pains, cooling down or warming up, and overall mobility and body health. In comparison with the regular rollers, this one works in a much softer way!
